## Fund analysis

	Fund
Average Coupon	4.4
Average Life	9.8
Yield to Worst	3.1
Yield to Maturity	3.0

Any yields quoted on the fact sheet are calculated at portfolio level gross of tax and expenses.

\* Yield to Worst is the lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making the worst-case scenario assumptions on the issue.

\* Yield to Maturity is a concept used to determine the rate of return an investor will receive if a long-term, interest-bearing investment, such as a bond, is held to its maturity date. Please note that this is not the return or dividend to be received by investors in the fund.

## Fund overview

The Global Sukuk Fund invests with persistent structural advantages achieved through:

- Breadth of market coverage
- Depth of specialised expertise
- Disciplined portfolio construction
- Innovation in evolving markets

## Organisation

Principal Islamic acts as a global partner to institutional global investors, providing a range of Islamic investment portfolios to suit differing needs. We offer separately managed portfolios for institutions and collective investments. The joint venture between Principal Islamic and Principal Financial Group allows Principal Islamic to leverage on the strong global Islamic credentials of Principal Islamic while Principal Global Investors (the asset management arm of Principal Financial Group) lends its expertise in global asset management. Headquartered in Kuala Lumpur, Malaysia, Principal Islamic is strategically located in the world's first country with a complete Islamic financial system operating in parallel to the conventional banking system. This allows the firm to leverage on Malaysia's comprehensive Islamic financial infrastructure and its adopted global regulatory, legal and Shariah best practices.

## Performance note

\*Index Disclosure: The Fund is actively managed and aims to outperform the Dow Jones Sukuk Price Return Index\* (the "Index"). The portfolio manager may reference the Index as part of the investment management process and the majority of the Fund's investments will be in securities that are components of the Index. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy and with prior approval from the Shariah Advisor. This document presents the performance of this particular unit class of the Fund from the date of inception of the unit class in its unit class currency, as specified on the front page. Performance is calculated on a NAV-to-NAV basis, includes the reinvestment of all investment income, and does not take into account subscription fees and/or tax, but does include trustee and management fees. The NAV is not guaranteed and may fall as well as rise, depending on investment performance, and exchange rate fluctuations - where the Fund invests in non-USD denominated assets, whose value is not hedged to the USD. Performance is calculated on a NAV-to-NAV basis, which includes the reinvestment of net income. The NAVs used in these calculations reflect the month-end market close prices of assets. The actual performance an investor receives reflects the NAVs at which they trade the Fund, which are calculated at the Fund's Valuation Point - as such, the two returns will differ. Outperforming the Dow Jones Sukuk Price Return Index is not specifically included in the objective for the Fund, and the figures shown in the table are provided as a comparison only. Past performance is not indicative of future performance. All figures are stated in USD unless otherwise noted. Investments do not always add up to 100% due to rounding.
