Yield to Worst	5.3
Yield to Maturity	5.3

Any yields quoted on the fact sheet are calculated at portfolio level gross of tax and expenses.

- Yield to Worst is the lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making the worst-case scenario assumptions on the issue.
- Yield to Maturity is a concept used to determine the rate of return an investor will receive if a long-term, interest–bearing investment, such as a bond, is held to its maturity date. Please note that this is not the return or dividend to be received by investors in the fund.

Fund overview

The Fund seeks to maximize total return over the medium to long term through a combination of capital growth and income. The Fund seeks to achieve its objective by investing primarily in a diversified portfolio of Shariah-compliant fixed income securities (Sukuk) issued by government, government-related entities such as their local authorities and public authorities, corporate or supranational entities located globally.

Organisation

Principal Islamic acts as a global partner to institutional global investors, providing a range of innovative Shariah-compliant solutions to help diversify investment portfolios and achieve financial goals. We offer customised mandate for institutional investors and Undertaking for Collective Investment Trust (UCITS) via the Principal Global Investors Funds platform. Principal Islamic is a joint venture between Principal Financial Group and CIMB Group, and headquartered in Kuala Lumpur, Malaysia. This allows Principal Islamic to leverage on Malaysia's comprehensive Islamic financial infrastructure and its adopted global regulatory, legal and Shariah best practices, whilst Principal Global Investors (the asset management arm of Principal Financial Group) lends its expertise in global asset management.

Risk warnings

- Sukuk Investment Risk – Like for other fixed income securities, price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors.
- There is no guarantee that the investment objective of the Fund will be achieved.
- This shareclass is unhedged. Unhedged shareclasses are exposed to greater risk and volatility.
- The potential for profit is accompanied by the possibility of loss.
- There are specific risks associated with the use of derivative instruments, including counterparty, position, liquidity, settlement, correlation and legal risk.
- Contingent convertible securities risk is due by the substantially greater risk that these instruments may have compared to other forms of securities in times of credit stress and may result in a material loss to the Fund.
- Mortgage and Asset-Backed Securities carry greater risk compared to other securities in times of market stress such as early payment and/or extension of the life of the underlying assets.
- Liquidity risk: The risk that arises when adverse market conditions affect the ability to sell assets when necessary. Reduced liquidity may have a negative impact on the price of the assets

Performance note

Index Disclosure: The Fund is actively managed and aims to outperform the Dow Jones Sukuk Price Return Index (the "Index"). The portfolio manager may reference the Index as part of the investment management process and the majority of the Fund's investments will be in securities that are components of the Index. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy and with prior approval from the Shariah Adviser. This document presents the performance of this particular unit class of the Fund from the date of inception of the unit class in its unit class currency, as specified on the front page. Prior to 31st December 2018, the data performance calculations reflect the month-end market close prices of the Fund's assets. After 1 January 2019, the performance data shown is based upon the Fund's Net Asset Value (NAV) prices of the last Irish business day of the month. For Funds not open for dealing on this day this will be an indicative NAV. As a result, it is possible that the stated performance and the actual investment returns available to investors will differ. Outperforming the Dow Jones Sukuk Price Return Index is not specifically included in the objective for the Fund, and the figures shown in the table are provided as a comparison only. Past performance is not indicative of future performance. All figures are stated in USD unless otherwise noted. Investments do not always add up to 100% due to rounding

This document presents the performance of this particular unit class of the Fund from the date of inception of the unit class in its unit class currency, as specified on the front page. Performance since inception date of the Fund, which precedes the inception date of the unit class, is available upon request.
