Performance note

Index Disclosure: The Fund is actively managed and aims to outperform the Dow Jones Sukuk Price Return Index (the "Index"). The portfolio manager may reference the Index as part of the investment management process and the majority of the Fund's investments will be in securities that are components of the Index. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy and with prior approval from the Shariah Advisor. This document presents the performance of this particular unit class of the Fund from the date of inception of the unit class in its unit class currency, as specified on the front page. Performance is calculated on a NAV-to-NAV basis, includes the reinvestment of all investment income, and does not take into account subscription fees and/or tax, but does include trustee and management fees. The NAV is not guaranteed and may fall as well as rise, depending on investment performance, and exchange rate fluctuations – where the Fund invests in non-USD denominated assets, whose value is not hedged to the USD. Performance is calculated on a NAV-to-NAV basis, which includes the reinvestment of net income. The NAVs used in these calculations reflect the month-end market close prices of assets. The actual performance an investor receives reflects the NAVs at which they trade the Fund, which are calculated at the Fund's Valuation Point - as such, the two returns will differ. Outperforming the Dow Jones Sukuk Price Return Index is not specifically included in the objective for the Fund, and the figures shown in the table are provided as a comparison only. Past performance is not indicative of future performance. All figures are stated in USD unless otherwise noted. Investments do not always add up to 100% due to rounding.
