Fund overview

The Fund's objective is to provide a return consisting of income and, over the medium to long term, capital growth. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of global Shariah compliant instruments including equities and equity related securities, Shariah compliant fixed income securities and money market instruments.

Organisation

Principal Islamic acts as a global partner to institutional global investors, providing a range of Islamic investment portfolios to suit differing needs. We offer separately managed portfolios for institutions and collective investments. The joint venture between Principal Islamic and Principal Financial Group allows Principal Islamic to leverage on the strong global Islamic credentials of Principal Islamic while Principal Global Investors (the asset management arm of Principal Financial Group) lends its expertise in global asset management. Headquartered in Kuala Lumpur, Malaysia, Principal Islamic is strategically located in the world's first country with a complete Islamic financial system operating in parallel to the conventional banking system. This allows the firm to leverage on Malaysia's comprehensive Islamic financial infrastructure and its adopted global regulatory, legal and Shariah best practices.

Risk warnings

- The Fund may utilise a number of derivative instruments in managing the Investment Objective of the Fund. The primary risks associated with the use of such instruments are credit risk, counterparty risk and collateral risk.
- There are specific risks associated with investments in emerging markets, resulting from potentially less developed market practices. These include legal, political and fiscal instability, settlement, liquidity, currency, accounting standards and custodial risk.
- Due to underlying real estate assets held in REITS, the liquidity of these securities is typically less than other equity securities.
- The market value of Sukuk is affected by changes in prevailing interest rates. The Fund may also be exposed to credit and default risk by investing in such securities. Additionally due to its size, The Sukuk market may present liquidity risk.
- There is a higher default risk associated with investment in below investment grade Sukuk.
- The value of an investment may fluctuate due to changes in exchange rates between currencies and may or may not be hedged back to the Fund's base currency.
- The price of equity securities fluctuates based on changes in a company's financial condition, overall market and economic conditions and market sentiment, resulting in an increased potential for volatility.

Performance note

The Fund is actively managed without reference to a benchmark and the Fund is not intended to be compared directly with any specific publicly available benchmark. The Sub-Investment Manager maintains full discretion to select investments for the Fund in line with the above investment policies.

The performance data shown is based upon the Fund's Net Asset Value (NAV) prices of the last Irish business day of the month. For Funds not open for dealing on this day this will be an indicative NAV. As a result, it is possible that the stated performance and the actual investment returns available to investors will differ. The performance data shown is based upon the Fund's official Net Asset Value (NAV) prices. The performance data shown is net of fees and other charges but excludes any potential entry/exit charges - as such the return an investor receives may be lower. Please see Important information page for complete information. All figures are stated in USD unless otherwise noted. Investments do not always add up to 100% due to rounding.
