

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**"USD A Class Accumulation Shares", a Share class of Islamic ASEAN Equity Fund (the Fund), a sub-fund of CIMB-Principal Islamic Asset Management (Ireland) Plc (the Company) (ISIN: IE00B56MXK54)**

This Fund is managed by CIMB-Principal Islamic Asset Management Sdn Bhd (the Manager), part of The Principal Financial Group of companies

## Objectives And Investment Policy

The Fund seeks capital growth over the medium to long term.

The main types of investments are equity securities and equity related securities (depository receipts) of companies that are domiciled or have their core business in the Southeast Asian Nations (ASEAN) region.

The choice of investments is guided by identifying companies which the Investment Manager or the Sub-Investment Advisers believe are mispriced and have the potential for significant growth.

The Fund may also invest in ancillary liquid assets including fixed and variable rate instruments issued by sovereign, quasi-sovereign and corporate entities which may or may not be of investment grade.

The Fund is subject to Shariah-compliant investments. For example, the Fund may only acquire securities that are Shariah-compliant listed under the list of Shariah-compliant securities included in the Dow Jones Islamic Market Index.

Further details on the Index may be obtained on [www.djindexes.com](http://www.djindexes.com).

You may buy and sell Shares on any Business Day subject to the terms set out in the section entitled "Dealing Day" of the Fund's supplement (which together with the prospectus constitute the Prospectus).

The Fund can also invest in derivatives structured in accordance with Shariah principles.

While it is generally intended for the Fund to be fully invested at all times, there may be a portion of assets held in cash or deposits at any given time.

The Fund will be managed without reference to a particular benchmark. The sub-investment adviser may make discretionary choices when deciding which investments should be held by the Fund subject to the Fund's objective and investment policy and restrictions.

For the full investment objectives and policy details please refer to the Supplement in particular sections 'Investment Objective and Policies and Profile of a typical investor' and 'Investment Restrictions'.

## Risk And Reward Profile

The Synthetic Risk and Rewards Indicator (SRRRI) identified by the above risk category shows where the Fund ranks in terms of potential risk and return. It is not a measure of the risk of capital loss but is based on the volatility of the returns (past performances). The lowest category does not mean a risk free investment.

If the Fund does not have a track record, the SRRRI has been calculated based on studies of how such investments have performed in the past and investors should note that historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this Fund.

The risk and reward category for this Fund is not guaranteed to remain unchanged, and may shift over time.

This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past.

The following are risks materially relevant that are not captured by the SRRRI:

- Equity markets are subject to many factors, including economic conditions, government regulations, market sentiment, local and

international political events, and environmental and technological issues that may impact return and volatility. There is a risk that an investment will decline in value.

- There are specific risks associated with the use of derivative instruments, including counterparty, position, liquidity, settlement, correlation and legal risk.

- There are specific risks associated with investments in emerging markets, including legal, political and fiscal instability, settlement, liquidity, currency, accounting standards and custodial risk.

- The Fund's investments may be in currencies other than US Dollars. The value of an investment may fluctuate due to changes in exchange rates between currencies or the possible imposition of exchange control regulations.

- Whilst depository receipts are traded on recognised exchanges, there may be other risks associated with such instruments to consider – for example the shares underlying the instruments may be subject to political, inflationary, exchange rate or custody risks.

Prospective shareholders should consult their own Shariah advisers as to whether the Company, the Fund and the investments of the Fund are compliant with Shariah principles.

Please see the section entitled Special Investment Considerations and Risks of the Prospectus where full details are disclosed.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or paid out	
Charges taken from the fund over a year	
Ongoing charge	1.73%
Charges taken from the fund under certain specific conditions	
Performance fee	None

Any **entry** and **exit charges** shown are maximum figures, and in some cases investors may pay less. You can find out the actual charges from your financial adviser or distributor.

**Ongoing charges** are based on the last year's expenses, for the year ending December 2018, and this figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Whereas the entry charge will not normally be made on a conversion, the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may impose a service fee for any subsequent conversions during the subsequent twelve month period.

For more information about charges, please see Charges and Expenses in the Prospectus which is available as set out below.

## Past Performance

Performance has been calculated in USD and takes account of ongoing charges but excludes any entry/exit charges. The share class was launched in 2012. Past performance is not a reliable guide to future performance.

## Practical Information

The Custodian is BNY Mellon Trust Company (Ireland) Limited.
